BLACK PEPPER

Vietnamese black pepper is renowned for its rich aroma, strong pungency, and naturally high essential oil content.

Products are carefully cleaned and graded by bulk density and peppercorn size to support a wide range of applications, from food manufacturing and foodservice to industrial processing and oleoresin extraction.

- **BLACK PEPPER FAQ**

- **BLACK PEPPER ASTA CLEAN**

WHITE PEPPER

White pepper is produced from fully ripened pepper berries through controlled soaking, de-husking, and cleaning processes to preserve its uniform appearance, characteristic pungency, and natural aroma.

Natural-washed and double-washed white pepper grades are particularly suitable for premium food applications requiring a bright final product color and consistent flavor profiles.

DAK LAK RESERVE

This Robusta coffee is cultivated in Dak Lak, located in Vietnam's Central Highlands, on nutrient-rich basalt soil across an 85-hectare plantation.

The region's stable highland climate supports consistent plant growth and ensures uniform bean quality across harvests.

GROWING REGIONS

DURIGO

DuriGo is produced from carefully selected Ri6 durians sourced from Vietnam's Central Highlands, a region renowned for its favorable growing conditions.

The harvested durian features rich golden flesh, a naturally sweet and creamy taste, and a distinctive aroma.

These qualities are preserved through advanced freeze-drying technology, maintaining the fruit's natural flavor, texture, and nutritional value.
